

## Optima doormat 57x38 cm

MUOVIHAKA OY

Optima is the most effective and durable doormat. The upright and hard bristle construction of Optima is an extremely effective dirt wiper. Optima doormat is constructed to scrape mud, dust, grass and snow off shoe bottoms.

Optima is made of extremely hardwearing and weather resistance PE polymers. Open construction provides immediate drainage from mat surface, keeping the matting surface dry. Unbacked design allows moisture and dirt to flow through the mat.

Two Optima doormats can be joined easily together to make a larger mat.
